COURSE DESCRIPTION

In this course, students who have not yet completed their DNP project will continue to implement and evaluate their project with continued mentorship from the DNP project chair and team member. This course must be taken on a continual basis to remain in good standing in the program until the DNP project is completed. Note: completion of 1,000 post-baccalaureate experiential engagement hours and successful completion of the DNP project and presentation are required for graduation.

*A list of course textbooks are available on the Wilmington University Bookstore website: http://bookstore.wilmu.edu/

*Note, you will use the same textbooks for DNP 8000, DNP 8001, DNP 8002, and DNP 8004

COURSE OBJECTIVES

This course will provide students with the knowledge and skills to:

1. Evaluate the scientific underpinnings of practice.
4. Appraise information systems technology and patient care
5. Serve as a health care policy advocate by critically analyzi
6. Lead interprofessional teams in the analysis of complex pra

evidence to determine and implement the best evidence fo
policies, and related issues.

A Note on the Use of Online Synchronous Sessions:

This doctoral course offers students the opportunity to engage with fellow students and faculty via two to three online synchronous sessions.

Students have the option of attending the live session when scheduled or viewing the session recording made available through an online learning platform.

As these sessions are anticipated to offer valuable learning opportunities, students are expected to
